

Faith in The Flakes STEM
Assembly with Justin Berk
December 9th

Combine the love of snow with a fun school spirit shirt and a
STEM Assembly!

Presented by Award winning AMS Meteorologist Justin Berk.

Justin is co-Founder of the award-winning Kid Weather App with his 6 year old son.

When Justin describes himself, he says "In a nutshell I am a weather nut."

Justin Berk visits schools around the state to promote learning and the environment's weather. He was recently at several HCPS schools.

More information can be found at justinweather.com.

We encourage students to wear the shirts for the assembly on December 9th to show our excitement and support for STEM learning. Justin is also generous in making a donation to the school.
